

## TAG DAY FOR BOYS' BAND TOMORROW TO PROVIDE UNIFORMS

Kiwanis Club is Back of  
Drive to Provide  
Uniform Fund.

The people of Dixon and community will tomorrow be asked to aid and encourage one of the city's most worthy organizations—the Y. M. C. A. Boys' Band, and liberal support for the boys is indicated in the advance interest which has been shown.

Under the auspices and direction of the Kiwanis Club, which is getting behind the band, a Tag Day will be conducted all day tomorrow and tomorrow evening, the proceeds to go toward a fund to purchase uniforms for the young musicians.

Starting at 9 o'clock, when the thirty young lady tag-sellers and the band will meet at the Y. M. C. A. building, and continuing until late in the evening, the band will play and the ladies will endeavor to convince every citizen to wear a tag, showing financial and moral support for the band. The boys will play morning, afternoon and evening.

The band, organized some months ago, during the leadership of Elmer E. Rice at the Y. M. C. A., has made excellent progress and is one of the best boys' bands in the state. Under the direction of Earl Sennett the boys have been practicing hard and faithfully and on recent appearances have surprised all with their performance. The organization will be greatly improved with neat uniforms, and the Kiwanis Club is determined to see that the suits are provided.

## Dixon Baton Swinger Assists in Big Home Talent Show, Sterling

A number of Dixon people were in Sterling last evening to attend the attraction at the Academy of Music, "The Riot of 1923," put on by the Sterling Lady Zouaves and the Sterling Military Band. The attendance last evening was large and no doubt the house will be packed tonight. The show is unhesitatingly pronounced by all present, as a great success, a veritable riot of music and colors.

The opening, embracing the entire cast of 150 people, is something entirely new and novel and delightfully entertaining. The costumes are exceptionally gorgeous and beautiful and the music accompanying all parts and throughout the production is of the highest quality, calling for special arrangement for band and orchestra, is especially beautiful and appealing.

The solo parts were all well taken and the character parts also, the stage settings emphasizing the splendor of the orient.

The work of the Sterling Lady Zouaves and the Band were outstanding features throughout the evening's performance. The wall scaling and pyrotechnic work of the Zouaves is above criticism. The entire production is being highly complimented on every side in both cities today. The show this evening will have a large patronage, or there is excellent entertainment in the exceptional music, costumes and in fact, in the entire clever production.

Harry Blackburn of Dixon, baton swinger for the Dixon Legion Band, did an exhibition turn in a most satisfactory manner.

## Elopers Foiled on Arrival in Dixon

Miss Helen Sprague, aged 17, and George Stutzel, aged 25, barber, both of Davenport, motored to Dixon yesterday afternoon for the purpose of obtaining a marriage license but their plans were frustrated by telephone messages and both were arrested and taken to the court house building and taken to the county jail. Last evening, the young lady's father, who is a prominent wholesaler in Davenport, came to Dixon and took his daughter home. Stutzel was released from custody after the irate parent had departed with his daughter.

The couple drove to Clinton, where they had planned to obtain a marriage license, and then changed their minds. They continued east to Sterling only to find that the Whiteside county court house was in Morrison, through which place they had passed. They started to return to Morrison, but again changed their plans and came to Dixon. A long distance telephone message from the father of the girl, asked the local authorities to apprehend the pair, should they apply for a license, was received before they arrived.

## Mass Meeting Here Tomorrow Evening

A mass meeting will be held at the court house Saturday evening, December 9th, commencing at 7:30 for the purpose of discussing the merits and demerits of the new constitution.

At that time the various arguments advanced by the framers and supporters of the new constitution will be answered. All citizens should be informed on this question, and should vote next Tuesday their convictions. This is the most important election, so far as the people are concerned, since the election to adopt the present constitution in 1870. A cordial invitation is extended to the public to attend this meeting.

## SEC. EMMERSON WARNS AGAINST DRIFT OF GOVT.

Says Trend of Drift  
It Toward Bureau-  
cratic Govt.

By Associated Press Leased Wire  
Chicago, Dec. 8.—Addressing the Illinois Chamber of Commerce here today, Secretary of State Louis L. Emmerson, issued a warning against what he termed "the drift of the government towards bureaucracy."

He declared that the boards and commissions which sprang up during the war, continued to function and even to assume new powers and prerogatives.

"We are apparently drifting away from the ideals of the republic of early days toward bureaucracy," he said. "If this tendency is not checked I can see in the future a bureaucratic government which will assume executive, judicial and legislative powers affecting every citizen in one way or another and totally destroying the principle of the constitution which prescribes that the executive, legislative and judicial functions shall be entirely separate and independent. I can see a constant and alarming increase in the tax burden of the people to maintain these bureaus."

"We must check this growing tendency to create new agencies to administer every new law enacted. Government must be more responsive in assuming humanitarian responsibilities which rightfully belong to it. I have always thought it poor economy to refuse government help to many worthy causes, such, for instance, as maternity and child welfare work. I am convinced that better provisions should be made for the care of dependent children. Certainly we should recognize our obligation, more than we have yet done, to the men who are maimed and blinded for life as the result of the war."

## "DOLLAR DAY" SATURDAY FOR WORK IN ORIENT

Appeal is Made for  
Support of Work  
Dixonites.

The following appeal to the people of Dixon for aid for the Women's Christian Union, College of the Orient, has been made by the committee in charge of the drive in this city:

"Our board of all denominations are supporting these colleges. They cannot furnish the lands and the buildings. We have \$1,000,000 promised by the Rockefeller Memorial if we can raise \$2,000,000. We have the first million and have begun to build. The second million must be secured before Jan. 1, 1925, or the Rockefeller gift will be lost.

"We are trying to get this in one day in dollar gifts from those who cannot do more. This is a community offering on the same basis as the Red Cross. The churches, colleges and club women are serving throughout the country as collectors.

"Any check dated in January, 1925, will be welcomed and will not be cashed until date of check. These should be handed in Dec. 9. This is a national plan. On Dec. 9, all across our broad land the little candles on the coupons will be tipped with red crayon, in token that the donors are lighting the flame of Christian knowledge around the world.

Robert R. Phillips, ex-sheriff of Lee county, sustained painful injuries yesterday morning when he slipped and fell as he was leaving the Frank Young home on West Second street. His right forearm and hip were badly bruised. An X-ray examination was made this morning to determine the extent of the injury to the right forearm.

## ILLINOIS CHAMBER OF COMMERCE BACKS NEW CONSTITUTION

Statement Indicates Mr.  
Armour Has Been at  
Work on Own Hook.

By Associated Press Leased Wire  
Chicago, Dec. 8.—The Illinois Chamber of Commerce must carry to a conclusion its work for the Great Lakes-St. Lawrence and Illinois River Waterways, state police and war on fake stock salesmen, John H. Camlin of Rockford, retiring president of the state chamber, declared today at the fourth annual convention of the organization.

Julius H. Barnes, president of the United States Chamber of Commerce, was to speak at the chamber's annual luncheon.

President Camlin reviewed the work of the chamber in behalf of the Illinois River improvement and called attention to Governor Small's recent orders for the construction of the locks to make possible navigation between Lake Michigan and the Mississippi River by means of the Chicago Drainage Canal and the Illinois River.

Twenty-four joint conference of the committees of the state chamber, the Illinois Agricultural Association and the Illinois Bankers' Association were held on the proposed new state constitution, President Camlin said, and added that "the organizations have insisted a new constitution was necessary, and believe that the members of a constitutional convention have attempted in good faith to submit a document which the voters of the state will approve."

Help at Heroin.  
He recalled that the state chamber raised a fund for investigation of the Heroin mine killings and added:

"And fortunate indeed it was that when justice failed in Williamson county and the finger of the world's scorn was pointed at Illinois, there was ready at hand an organization fully prepared to take the lead in wiping out the blot."

"Whether the criminals are punished, or through misguided local sentiment and blind prejudice permitted to go free," he continued, "the good name of Illinois has already been redeemed, and as President Harding so aptly said in a letter to the state chamber, 'there is of course a conscience in Illinois which will not tolerate such a disgraceful thing. It will be pleasing to me and reassuring to the whole country to know that this conscience is finding expression.'"

President Camlin said that the chamber's securities information department had put out of business 106 fake stock salesmen but that the department should be expanded.

## Duffy Cottage Near Lowell Park Burned

The beautiful summer cottage owned by John Duffy of this city was completely destroyed by fire of an unknown origin last evening shortly after 8 o'clock. The Duffy cottage is located about 300 feet up the river from the Graybill lodge and adjoins the Lowell Park property. Members of the Graybill family discovered the fire about 8:30 last evening and at that time the cottage was enveloped in flames.

The loss is estimated at about \$2700 on the building and furnishings; the amount being partially covered by insurance. The floors in the cottage were of cement and as far as is known, no one has been in the building for several days. It is presumed that careless hunters may have started a fire near the cottage or that the blaze was of incendiary origin.

## Oats Co. Brought \$30,300 Yesterday

The Universal Oats company plant in Dementown was offered for sale for the second time yesterday afternoon, at which time the highest bid received amounted to \$30,300, which was offered by Gordon Utley, who represents local interests.

Receiver F. N. Newcomer will go to Rockford tomorrow to report the sale to Col. A. E. Fisher, federal referee in bankruptcy, submitting for his approval or disapproval. The amount bid is but \$200 more than was offered at the first sale a few weeks ago.

## HARDING DISCUSSES PROHIBITION, RELIEF FOR FARMERS, TRANSPORT- ATION AND WORLD RELATIONS TODAY

By Associated Press Leased Wire  
Washington, D. C., Dec. 8.—President Harding in his annual message delivered today to congress in person deals with nearly a score of subjects, chief among them prohibition, farm credits, the transportation problem, child labor and immigration.

The Executive announces his purpose to invite the governors of the states and territories to an early conference with the federal executive authority with a view to adopting definite policies of national and state co-operation in administering the prohibition laws.

He says the day is unlikely to come when the prohibition amendment will be repealed and that the nation should adapt its course accordingly.

President Harding tells congress that if the statutory provisions for prohibition enforcement are contrary to deliberate public opinion, which he does not believe, the rigorous and literal enforcement will concentrate public attention on any requisite modification.

"Such a course," he adds, "conforms with the law and saves the humiliation of the government and the humiliation of our people before the world and challenges the destructive forces engaged in widespread violation, official corruption and individual demoralization."

With regard to the transportation problem, Mr. Harding proposes that the Railroad Labor Board be abolished and the substitution of a labor division in the Interstate Commerce Commission with ample power to require its rulings to be accepted by both parties to a disputed question.

The Executive also proposes that the law require the carriers and their employees to institute means and methods to negotiate between themselves their constantly arising differences, limiting appeals to the government body to disputes of such character as are likely to affect the public welfare.

Coordination of all transportation facilities is urged by the President. The President began his address by calling the attention of congress to general world conditions, which he said still were seriously disturbed as a result of the war.

"The inevitable readjustment of the social and economic order is not more than barely begun," he continued.

"There never again will be precisely the old order; indeed, I know of no one who thinks it to be desirable for out of the old order came the new and the new order, established and made secure, never will permit its recurrence."

Test of Civilization.  
"It is no figure of speech to say we have come to the test of our civilization. The world has been passing—today passing—through a crisis. The conduct of war itself is not more difficult than the solution of the problems which necessarily follow. I am not speaking at this moment of the problem in its wider aspect of world rehabilitation or of international relationships. The reference is to our own social, financial and economic problems at home. These things are not to be considered solely as problems apart from all international relationship, but every nation must be able to carry on for itself, else its international relationship will have scant importance."

"Doubtless our own people have emerged from the World War less impaired than most belligerent powers; probably we have made larger progress toward reconstruction. Had we escaped the coal and railway strikes, which had no excuse for their beginning and less justification for their delay, our situation would have been infinitely better. But labor was insistent on holding to war heights, and heedless forces of reaction sought the pre-war levels, and both were wrong."

Difficulty of Farmer.  
"The railway strike accentuated the difficulty of the American farmer. The first distress of readjustment came to the farmer, and it will not be a readjustment fit to abide until he is relieved. The distress brought to the farmer does not affect him alone. Agricultural ill-fortune is a national ill-fortune."

"This congress already has taken cognizance of the misfortune which precipitate deflation brought to American agriculture. Your measures of relief and the reduction of the federal reserve discount rate undoubtedly saved the country from widespread disaster. The very proof of helpfulness already given is the strongest argument for the permanent establishment of widened credits, heretofore temporarily extended through the war finance corporation."

"The farm loan bureau, which already has proven its usefulness through the federal land banks, may well have its powers enlarged to provide ample farm production credits as well as enlarged land credits."

It is entirely practical to create a division in the federal land banks to deal with production credits with the limitations of time so adjusted to the farm turnover as the federal reserve system provides for the turnover in the manufacturing and mercantile world. Special provision must be made for live stock production credits, and the limit of land loans may be safely enlarged. Various measures are pending before you, and the best

A SHOPPING SHE WILL GO

Judgment of congress ought to be expressed in a prompt enactment at the present session.

"But American agriculture needs more than added credit facilities. The credits will help to solve the pressing problems growing out of war-inflated land values and the drastic deflation of the years ago, but permanent and deserved agricultural good fortune depends on better and cheaper transportation. Here is an outstanding problem demanding the most rigorous consideration of the congress and the country."

Transportation Brake Down  
"In the last half of the year now closing the railways, broken in carrying capacity because of motive power and rolling stock out of order, though insensitively declaring to the contrary, embargoed his shipments, or denied him cars when for transportation failed while perishable products were turning from possible profit to losses counted by tens of millions."

"I know of no problem exceeding in importance this one of transportation. We have built forty per cent of the world's railroad mileage, and yet find it inadequate to our present requirements."

"Manifestly we have needed to be wiser in planning all transportation facilities. We should more effectively connect up our railroad lines with our carriers by sea. We ought to reap some benefit from the hundreds of millions expended on inland waterways, providing our capacity to utilize as well as expend. We ought to turn the motor truck into a railway feeder and distributor instead of a destroying competitor."

Can't Wave Problem  
"This transportation problem cannot be waved aside. The demand for lowered costs on farm products and basic materials cannot be ignored. Rates horizontally increased to meet increased wage outlays during the war inflation, are not easily reduced. When some very moderate wage reductions were effected last summer there was a five per cent horizontal reduction in rates. I sought at that time, in a very formal way, to have the railway managers go before the Interstate Commerce Commission and agree to a heavier reduction on farm products and coal and other basic commodities and leave unchanged the freight tariffs which a very large portion of the traffic was able to bear. Neither the managers nor the commission saw fit to adopt the suggestion, so we had the horizontal reduction too slight to be felt by the higher class cargoes and too little to benefit the heavy tonnage calling most loudly for relief."

"Railways are not expected to render the most essential service in our social organization without a fair return on capital invested, but the government has gone so far in the regulation of rates and rules of operation that it has the responsibility of pointing the way to the reduced freight costs so essential to national welfare."

Need Cooperation  
"Government operation does not afford the cure. Clearly the managers are without that inter-carrier, cooperative relationship so highly essential to the best and most economical operation. They could not function in harmony when the strike threatened the paralysis of all railway transportation."

"I remind you that congress provided a joint commission of representatives from industry which made an exhaustive investigation of car service and transportation and unanimously recommended in its report of October 15, 1921, the pooling of freight cars under a central agency. This report well deserves your serious consideration."

"In a previous address to the congress I called your attention to the insufficiency of power to enforce the decision of the Railroad Labor Board. Carriers have ignored its decisions on the one hand, railway workmen have challenged its decisions by a strike on the other hand."

Is Partial Body  
"The labor board itself is not so constituted as best to serve the public interest. With six partisan members on a board of nine, three partisan nominated by the employees, and three by the railway managers, it is inevitable that the partisan viewpoint is maintained throughout hear-

ings and in decisions handed down. I am well convinced that the functions of this tribunal could be much better carried on here in Washington. Even were it to be continued as a separate tribunal there ought to be contact with the Interstate Commerce Commission.

"The substitution of a labor division in the Interstate Commerce Commission made up from its membership to hear and decide disputes relating to wages and working conditions which have failed of adjustment by proper committees created by the railways and their employees, offers a more effective plan."

"This suggested substitution will involve a necessary increase in membership of the commission, probably four to constitute the labor division. If the suggestion appeals to the congress, it will be well to specify that the labor division shall be constituted of representatives of the rate-making territories, thereby assuring a tribunal conversant with the conditions which obtain in the different rate-making sections of the country."

"I wish I could bring to you the precise recommendation for prevention of strikes which threaten the welfare of the people and menace public safety. It is an impotent civilization and an inadequate government which lacks the genius and the courage to guard against such a menace to public welfare as we experienced last summer."

Public Interest demands that ample power shall be conferred upon the labor tribunal, whether it is the present board or the suggested substitute, to require its rulings to be accepted by both parties to a disputed question.

No Denial of Right  
"Let there be no confusion about the purpose of the suggested conference of the power to make the decisions effective. There can be no denial of constitutional rights to either railway workmen or railway managers."

"No man can be denied his right to labor when and how he chooses, or cease to labor when he so elects, but, since the government assumes to safeguard his interests while engaged in any essential public service, the security of society itself demands his retirement from the service shall not be so timed and related as to effect the destruction of that service."

"During its longer session the present congress enacted a new tariff law. The protection of the American standards of living demanded the insurance it provides against the distorted conditions of world commerce. No one contemplated commercial aloofness nor any other aloofness contradictory to the best American traditions or loftiest human purposes."

"War made us a creditor nation. We did not seek an excess possession of the world's gold, and we have neither desire to profit unduly by its possession nor permanently retain it. We do not seek to become a national dictator by its power."

"We would rejoice to help rehabilitate currency systems and facilitate all commerce which does not drag us to the very levels of those we seek to lift up."

"While I have everlasting faith in our republic it would be folly indeed, to blind ourselves to our problems at home. Abusing the hospitality of our shores are the advocates of revolution, among their deluded followers are those who take on the habiliments of American, without not knowing American soul. There is the recrudescence of hyphenated Americanism which we thought to committed the nation, life and soul, to the world war."

Must Common Respect  
"There is a call to make the alien respect our institutions while he accepts our hospitality. Let men who are rendering the moral force of the republic through easy contempt for the prohibition law, be caught by their own hypocrisy, remember that they set the example and breed a contempt for law which will ultimately destroy the republic."

"Constitutional prohibition has been adopted by the nation. It is the supreme law of the land. In plain-speaking there are conditions relating to its enforcement which favor of nation-wide scandal. It is the most demoralizing factor in our public life."

"Most of our people assumed that the adoption of the eighteenth amendment meant the elimination of the question from our politics. The contrary it has been intensified as an issue that many voters are disposed to make all political decisions with reference to this single question. It is distracting the public mind and prejudicing the judgment of the electorate."

Amendment To Stand  
"The day is unlikely to come when the eighteenth amendment will be repealed. The fact may as well be recognized and our course adapted accordingly. If the statutory provisions for its enforcement are contrary to deliberate public opinion, which I do not believe, the rigorous and literal enforcement will concentrate public attention on any required modification. Such a course continued on page two."

## CHARGE WOMAN SOUGHT TO BUY HUSBAND'S END

Detroit Woman Held on Unusual Allegation Today.

By Associated Press Leased Wire  
Detroit, Mich., Dec. 8.—Mrs. May Blinn Ford solicited the services of a gunman to kill her wealthy husband of a year, Noy J. Ford, offered the gunman \$20,000 for the job and gave him a photograph of her husband to make sure the right man was slain, according to the sworn statements of four detectives whose investigation ended in Mrs. Ford's internment on a charge of attempting murder.

Denying the charge, Mrs. Ford declared she was the victim of a "frame up" that grew out of her domestic difficulties. These difficulties included a suit for divorce, filed last August, in which she charged cruelty, and a suit asking \$25,000 damages of her estranged husband for alleged assault.

Mrs. Ford was arrested last night when, it is alleged, she was about to meet Edward Kunaith, a detective, for a second conference on her reported plans for the slaying of her husband. Kunaith, it was said, posed as a "Kansas City gunman" Wednesday night when the alleged plot was first revealed by Mrs. Ford.

Say They Heard It  
Three detectives claim to have overheard the conversation in which the woman is said to have gone over the details with Kunaith.

Several plans for the killing were presented by Mrs. Ford, the officers declared. One they said, was that he be shot at his farm home, west of Detroit, and the others were that he be shot or slugged while working about the barns, the body to be destroyed in a hay stack. Before destruction of the body, Ford's gold teeth were to be removed to forestall identification, should the plot miscarry, it was said.

The \$20,000 was to be paid, the detectives declared, as soon as Mrs. Ford should have come into possession of her husband's estate.

Mrs. Ford was formerly a nurse in Toledo. She has two children by a former marriage.

### CUT IN HALF

The death rate from tuberculosis in the United States Registration Area has been cut from over 200 per 100,000 in 1900 to about 100 per 100,000 in 1921. Since 1904, the year in which an educational campaign to prevent and stamp out this disease was started by the National Tuberculosis Association, the death rate has been cut in half. Had the 1904 death rate prevailed we should have lost 50,000 more persons in 1921. How many lives were saved in your city?

She was born in America, of Finnish parents, and is police judge as well as mayor of Fairport, a town of 7,000 persons.

"Sometimes I fine bootleggers," Dr. Kauponen said, "sometimes I send them to jail. But the most effective method is sending them out of the country."

## THE RIVER OF LIFE—

The more we live, more brief appear  
 Our life's succeeding stages:  
 A day to childhood seems a year,  
 And years like passing ages.

The gladness current of our youth  
 Ere passion yet disorders,  
 Stools lingering like a river smooth  
 Along its grassy borders.

And as the care-worn cheeks grow  
 Worn,  
 And sorrow's shafts fly thicker,  
 Ye stars, that measure life to man,  
 Why seem your courses quicker?

When joys have lost their bloom and  
 breath  
 And life itself is rapid,  
 Why, as we reach the Falls of Death,  
 Feel we its tide more rapid?

It may be strange, yet who would  
 change  
 Time's course to slower speeding,  
 When one by one our friends have  
 gone  
 And left our bosoms bleeding?

Heaven gives our years of fading  
 strength  
 Indemnifying fleetness;  
 And those, of youth, a seeming length,  
 Proportioned to their sweetness.  
 —Thomas Campbell.

pital as a nurse three years ago, and for the last six or eight months has been practicing in DeKalb, where she has made many friends. Mr. Self is the son of Mr. and Mrs. A. F. ## CHRISTMAS MEETING OF THE Y. P. M. S. ON THURSDAY—

On Dec. 5th, the Christmas meeting of the Young People's Missionary society of the M. E. church was held at the home of Mr. and Mrs. A. N. Richardson of West Third street.

Forty-five members attended and enjoyed the evening.

"Joy to the World," was sung for an opening selection.

Miss Irma Grose, assisted by twelve ladies had charge of the devotional. Each lighted a candle while they recited a verse, carrying out the Christmas story from Luke, at the close of which Miss Ruth Leydig sang a very impressive Christmas song.

The reports of the secretary and treasurer were read and approved.

Dr. McNicol had charge of the Foreign Study and Near East subject. In his article he stressed the importance of the Christian world's acting in order to save our present form of civilization from impending perils.

Miss Dolly Pauth and Mrs. Parker sang "Silent Night" and responded to an encore.

Miss Breed had charge of the home study and she brought out the great spirit of Christian sacrifice in administering to the need of the colored people and the different individuals of their race, finding themselves in uplifting their own people.

A delicious luncheon was served, after which the members enjoyed a social hour under the direction of Mrs. Will Hintz.

Each member and guest brought to the meeting a filled Christmas stocking, full of candy and toys, for the Lincoln Avenue Mission in Chicago.

## IF YOU ARE WELL BRED—

The "Monahans" held their monthly gathering Wednesday at the home of Mrs. E. J. Decker. A delicious New England dinner was served at the noon

hour, followed by cards in the afternoon. At the close of a delightful day, the Christmas grab-bag was passed around and much amusement was the result.

## YOUR FUTURE

You have noticed that hard times  
and prosperity follow each other in  
cycles, like spokes of a revolving  
wheel. Makes life uncertain. You  
never know for sure what to expect.

A valuable tip along this line is  
furnished by Colonel Leonard W.  
Ayres. In business he's the statistician  
for Cleveland Trust Company and  
known internationally. Uncle Sam  
uses his "figgers"—keeps him on the  
army's general staff.

Colonel Ayres, after analyzing busi-  
ness conditions in the last 60 years,  
makes this discovery:

"During this long period, as many  
as four years out of each 10 have been  
years of serious business depression."

"In other words, striking an average,  
two years out of every five are  
genuine hard times. And, probably,  
out of every five, are genuine hard  
times. And, probably, out of the  
three remaining years, one is a period  
of mild depression, one a year of half-  
hearted prosperity, and only one year  
in the five a genuine boom period."

Apply this to your personal life. It  
means: Two out of each five years of  
your life will be times when the shoe  
will pinch tightly.

If you live 60 years, 24 of them will  
be in periods of hard times. In the  
remaining 36 years you will either be  
operating in prosperous conditions or  
at least getting a fair run for your  
money.

Out of the entire 60 years, probably  
not more than 12 will be years of  
"easy picking."

In a lifetime of 60 years, according  
to these figures, the average man has  
36 years in which he makes or breaks  
himself and his fortunes.

During these 36 years of varying  
degrees of prosperity, it is necessary  
to build up a reserve fund for the 24  
years of hard times.

This truth has been known since  
ancient days in Egypt when one of  
the Pharaohs stored grain during  
seven fat years to provide food for  
the seven years that followed.

America now is definitely well into  
a period of better times. The de-  
pression that began in May, 1920, still  
is fresh in our memories. We should  
keep it there indelibly.

Hard times do not last forever.  
Neither does prosperity. Hard times  
will come again—in your lifetime. If  
wise, you are preparing—laying away  
a financial umbrella for a rainy day.  
And you have noticed, that it seems  
less inclined to rain when you have  
an umbrella.

## IMPOSSIBLE

Why worry about Germany swamp-  
ing this world with her cheap goods?  
She's getting swamped herself. A  
check-up shows that in September  
and October her imports exceeded her  
exports by nearly \$160,000,000. A Chi-  
nese puzzle is simple, compared with  
the problem of how to extract inden-  
demy payments from Germany's for-  
eign trade.

If that isn't interesting, pass on to  
this: Valentine Menges at an eating  
contest in New York stows away 51  
"rankfurter sandwiches. He claims  
the national championship. He can  
have it.

## PROTECTIVE TARIFF AND IMMIGRATION

People quite generally are apt to  
overlook the relation between restric-  
tion of immigration and a protective  
tariff. But there is a really intimate  
relation.

Restriction of immigration is sure  
ultimately to call for a really protec-  
tive tariff if we would avoid dire re-  
sults.

If there is to be no adequate pro-  
tective tariff, then there would better  
be on limit placed on immigration.

Restriction of immigration as large

employers of labor view it, means  
higher wages. The majority of the  
people are nevertheless for restric-  
tion, so that the melting pot may not  
be clogged and cease to melt. But the  
danger is that, after awhile, restric-  
tion may come to be a boomerang.  
While wages are mounting in this  
country, they will continue very low  
in Europe. Then, if we are to have a  
low protective tariff, or no tariff at  
all, Europe can make goods for us,  
get cheaply or freely by the customs  
houses, land the goods on our mar-  
kets, and thus shut down many of  
our factories and mills, bringing back  
to us a great unemployment problem.  
Millions of men would drop from high  
wages to no wages at all. To make  
restriction safe, every citizen should,  
if he is consistent, stand for a protec-  
tive tariff, one that will balance the  
difference between wages here,  
however high they may be, and wages  
in foreign nations.

## THE AMERICAN MUSEUM

The Museum of the American In-  
dian which was recently opened to  
the public in New York City is  
unique in being the only one of its  
kind in the world. The collection com-  
prises 1,800,000 specimens of Ameri-  
can Indian life. George Gustav Heye,  
the founder of the collection, is an  
American engineer who early made  
the gathering of Indian relics a hob-  
by and of late a business. The speci-  
mens represent the life of Indians in  
both South and North America, and  
were the result of twenty-five years'  
search on the part of Mr. Heye and  
his explorers.

The significance of such a collection

as is housed in the Heye Museum is  
not to be underestimated. Little is  
known of the origin of the American  
Indian. As a matter of American history,  
it is important that scholars  
should be encouraged to direct their  
investigations in this direction. In  
no better way could this be done than  
in the establishing of such an institu-  
tion as the new Museum of the Ameri-  
can Indian.

## DEEP WATERS NO. 21

## A MESSAGE FROM THE STOWAWAY

BY ZOE BECKLEY

"Here, on board? My daughter!"  
Barrett could not grasp the meaning  
of what the steward said. Then sud-  
denly he strode off, without waiting  
the man's answer, without knowing  
where he was going—

The steward followed and guided  
him eagerly. Almost out of hearing,  
Barrett turned and called to Myra:  
"Please forgive me—and won't you  
come?"

She hesitated, then waved to him  
not to wait for her.  
Barrett was quickly led to the sa-  
loon doctor's office. Here on a  
couch lay Alice, her clothes soiled

The Oriental turned suddenly, his  
face contracted and tense, but his  
voice firm.  
"Very well, monsieur," he said;  
"whither do these suggestions lead  
you?"

Jonquille continued in an even  
voice.  
"To arrive at that," he said, "we  
must first consider the evidences  
which have led you to believe that  
Dernburg was killed by the man  
with whom he quarreled last night  
in the library. Now, if you please,  
monsieur, we will look a little at the  
indicatory signs."

He paused.  
"There is always this disturbing  
feature about circumstantial evi-  
dences, the trick of pointing in the  
direction that one is going. If one  
draws a conclusion one will find that  
the circumstantial evidence supports  
it. You have a theory, monsieur,  
that this visitor was Dernburg's as-  
sassin, and consequently, to you, the  
indicatory evidence supports that  
theory. But, monsieur, I have the  
theory that the visitor was not the  
assassin, and I bid you observe how  
the indicatory evidences will turn  
themselves about in order to support  
the theory which I maintain. Take,  
for example, these blood-drops on the  
marble floor of the drawing room. In  
support of your theory, they have  
fallen by hazard from the assassin's  
knife in his flight, and you would  
cite them as confirmatory of your  
theory."

"Now, monsieur, I would cite them  
also as confirmatory of mine."

"You will observe that each of  
these seven blood-drops has fallen on  
a white square of this checkered  
marble floor. There is no drop of  
blood on a black square. Why, mon-  
sieur, should these drops appear only  
on the white squares? I consider  
that fact with my theory in mind,  
and I conclude that they so appear  
because the one who placed them  
there wished them to be seen. We  
cannot conceive that he would un-  
dertake to create evidence against  
himself. And it is beyond our con-  
ception of coincidence that each of  
these seven blood-drops should, by  
accident, have fallen precisely on a  
white square when there was an  
equal number of black squares inter-  
vening. Therefore, monsieur, these  
evidences did not come by chance;  
they came by design."

He continued like one who recites  
the details of a formula:

"I find my theory also confirmed  
at a further point. You explained to  
me, when I inquired, that the assas-  
sin, after fleeing through this draw-  
ing room into the walled garden, had  
escaped by climbing over the wall,  
since the gate was nailed up and had  
been so nailed up for a long time.  
Now, monsieur, I caused this wall to  
be examined. The whole of the top  
of it is coated over with dust. At no  
point has any of this dust been re-  
moved; consequently the assassin  
did not escape by climbing over the  
wall, for if he had undertaken to  
climb the wall at any point, his body,  
in that labor, would have removed  
the coating of dust. You see, mon-  
sieur, I do not find your indicatory  
evidences designed to support your  
theory. They seem rather conclu-  
sively to establish my own."

He made a vague gesture as  
though to dismiss the matter.  
"And so, monsieur, we find our-  
selves before the triangular hypo-  
thesis! Did I murder Dernburg  
Pasha, or did you, or was he, in fact,  
murdered at all?"

The Oriental looked at the man in  
a sort of wonder.  
"He was surely murdered," he  
said.

The Prefect of Police spoke like  
one in some reflection.  
"It is by no means certain."

"Not certain?" echoed the Envoy.  
"The man is dead!"

"One may be dead without having  
been murdered," replied the Prefect  
of Police. "It is possible that the  
hand that gave Dernburg Pasha his  
fatal wound is no longer alive in  
this world."

The Turkish Envoy made an ex-  
clamation of surprise.  
"You cannot mean that Dernburg  
Pasha was murdered by a dead man?"

The concluding installment of this  
adventure of M. Jonquille will ap-  
pear in our next issue.

## PERSHING, DAWES IN PLEAS FOR AWAKENING BY CITIZENS OF U. S.

Both Insist People Must  
Come to Realization of  
Obligations.

Chicago, Dec. 7.—General John J. Pershing, in two addresses last night, metaphorically linked arms with Brig. Gen. Charles G. Dawes in a plea for a national awakening to the dangers from external aggression and the "horers from within." The two generals were the chief speakers at a patriotic dinner of the Association of Commerce. Later General Pershing repeated part of his address from a radio broadcasting station.

General Dawes spoke heatedly of the "skulking coward and demagogues in office" but his language was unadorned by the adjectives which gained him the nickname "hell Maria."

General Pershing also spoke regarding the state and civic conditions and pleaded for the "education of the people up to their obligations as citizens."

"You can have any kind of an administration in your state and city

you want, but you'll never change things until you have educated the citizens up to their obligations."

**"War Will Come"**  
Then General Pershing took up discussion of the general defense. "Some day war will come," he admonished "some day war will come—and come it will. We have come to the point where we must consider national defense."

"There is too much of a tendency to tamper with the constitution, too little respect for the authority of this country. The constitution is all right, no need to tamper with it. If those who want to do that will let it alone and live up to it, we will have no more of a lot of trouble that this country is in right now."

Referring to the pacifist pledge, General Pershing characterized it a "pledge of disloyalty." "If we are wide awake we are going to start to take some action in cases of that sort."

Two resolutions, one introduced by General Dawes, were adopted by the patriotic meeting. General Dawes resolution condemned Governor Small for release of William Brown Lloyd, wealthy radical, and sixteen associates from the state prison. The other resolution adopted at the conclusion of General Pershing's speech, called upon the government to maintain a standing army of 150,000 men.

### Nelson Man's Eye Eaten Out By Acid at Reynolds' Plant

Nelson—Mr. and Mrs. C. Zanger entertained their son Roy and wife of Rochelle, and son Arvin of Sterling on Thanksgiving.

Daniel and Robert Palmer have returned from Albany, N. Y., where they visited Mr. and Mrs. Arthur Palmer.

Mr. and Mrs. Earle Stitzel entertained as Thanksgiving guests, Mrs. J. C. Stewart of Dixon and Mr. and Mrs. M. C. Stitzel.

Mr. and Mrs. C. Roberts' guests on Thanksgiving were Mr. and Mrs. George Harshman, daughters Marie and Alice and son Clarence, also Mr. and Mrs. Gas Harshman, Ben and Frank Janssen, all of Sterling. Frank Janssen, who is employed at the Reynolds wire plant in Dixon,

had the misfortune to splash acid into one of his eyes while at work. The eye ball was eaten out and the sight destroyed. The other eye is also effected.

J. F. Kennedy opened up his hotel Sunday and is doing a good business. It is fine in every respect. The plumbing, lighting and heating is not to be excelled.

Lawrence Sturtz and family were Sunday guests of C. Zanger. Mrs. Sturtz is remaining for a longer visit.

John Janssen and wife took Thanksgiving dinner with their son Will and family.

Relatives have received word from Mr. and Mrs. J. B. Stitzel, who have

been at Spokane, Wash., for several months after Christmas because of the illness of a son-in-law, Ed Ferris, who is in a hospital.

### Fight on Baseball Pools is Pledged

Louisville, Ky., Dec. 7.—(By the Associated Press)—A fight to exterminate the baseball pools to save the game from suspicion was pledged Commissioner Landis by major and minor leaguers today as a result of the commissioner's appeal last night to wipe out what he termed the greatest menace to the sport.

The commissioner called the operation of a baseball pool "the lowest form of criminal in existence."

"I have handled many crooks in my day, but never have I had to deal

with such slimy and so unclean criminals as this clique of nation-wide gamblers who are grabbing money from the little fellows to place in the hands of the big fellows behind it all," Commissioner Landis declared. "While the operations of these

pools have absolutely no connection with baseball and cannot possibly be traced to the actions of any player or club, nevertheless if this thing is allowed to continue, it will destroy the good name of baseball."

An acceptable Christmas gift would be a block of shares in the Dixon Evening Telegraph sent to your out-of-town relative for a Christmas gift the secretary. (Tel. Evening Telegraph, No. 5.)

## Why the Nation Demands Calumet

—because it has more than the ordinary leavening strength; it raises millions of bakings every day to a light perfectly baked perfection that cannot be equaled.

—because it contains white-of-egg—the vital element that gives the housewives protection against using a baking powder that has lost its original leavening strength. It assures light, tender, tasteful things every time you bake.

—because it is economical—pure, sure and wholesome.

That's why the sale of Calumet is over 150% greater than that of any other baking powder.

A pound can of Calumet contains full 16 ounces. Some baking powders come in 12 ounce instead of 16 ounce cans. Be sure you get a pound when you want it.

### "The Coffee is Excellent"

A comment often heard at the Palmer House of Chicago, famed throughout the nation for its service and the delicious dishes on its menu. To maintain the high standard set years ago, the greatest care is used in selecting the best in food, for it is here the most discriminating dine and it is they who say "the coffee is excellent."

And it is Thomas J. Webb Coffee, of course.

You may have this same good coffee in your home—just get it from your grocer. You pay no more for it than for ordinary coffee. In fact, it is an economical coffee, for you get more cups to the pound. Try it!

PUHL-WEBB COMPANY  
CHICAGO - MILWAUKEE

An original "live flame" roasting process seals all the flavor in the bean. An air-tight metal container maintains the original flavor and freshness of the coffee, so that all the exquisite full flavor goes into your cup.

Thomas J. Webb Coffee may be had ground or in the bean. The ground is especially recommended, because of uniformity in just the right size, and all the chaff is removed.

## No Great Relief from Cold Weather

By Associated Press Leased Wire Chicago, Dec. 7.—There was no great relief for the northwest from the near zero temperature as the first cold wave of winter gradually extended southward today, giving the Pacific slope its first touch of real winter almost as far south as the Mexican border and threatening to overspread the Ohio and lower Mississippi valleys by Friday.

While minus temperatures still prevailed in the northwest, the thermometers last night did not drop to the low mark reached previously.

In the Atlantic states and the northern plateau region, the temperature has fallen while it has risen in the Mississippi valley and the southern plain states.

The writing and collecting the first insurance premium does not complete the transaction so far as we, as Agents, are concerned. It is our business to keep account of same and answer all questions that may arise pertinent thereto, make proper transfers and endorsements when you sell, move from one place to another or change in any way the hazard.

With this in mind we suggest when you require anything done to your Policy you see us. Keep your policies in good legal shape. Our Twenty-five years experience in this business does and should mean something to our policy holders.

See us when in doubt.

**Twelve Years More of Life for Humans**

Chicago, Dec. 7.—Twelve to fourteen years have been added to the average human life in the last half century by the progress in medical science, Dean John M. Dodson, of the Rush Medical School declared today before the University of Chicago Forum.

Infant mortality, he said, had been cut in half, tuberculosis largely robbed of its terrors and fevers and epidemics brought under control, but 600,000 still die in the United States annually from preventable diseases.
